

INTENT

The Preparation for Life curriculum was designed with input from student voice and focuses on areas that you felt you needed at key points in your lives. It is all about you.

Preparation for Life is exactly what the name suggests. This curriculum is about preparing you for life within school and beyond. Preparation for Life takes the curriculums for PSHE, Citizenship and Careers which are all subjects geared towards developing your personal, social and moral responsibility along with an understanding of careers and financial planning. PSHE also includes Relationships Sex Education.

You will develop the knowledge, skills and attributes to manage life's challenges and make the most of life's opportunities. As an active informed citizen you will develop an awareness and understanding of political and social issues. You will be able to weigh evidence, debate and make reasoned arguments. There is a strong focus on your physical and mental wellbeing as well as supporting your ambition.

65% of the careers you will enter into don't even exist yet. When you enter into any career you need to be able to greet every moment with strength of character. Preparation for Life is underpinned by the character values of the school, and how you may use the strength found in those values to approach life with gusto, managing risk, seeking support when needed and remaining a contributing member of society. Career guidance for students can be found: www.cambornescience.co.uk/ceaig/careers-education-students/ <<https://www.cambornescience.co.uk/ceaig/careers-education-students/>>

PREPERATION FOR LIFE
