

CAMBORNE SCIENCE
& INTERNATIONAL ACADEMY

House system

All students are part of a House, creating a strong sense of community from the moment they join the school. Throughout the year, the four Houses compete in a range of events and challenges, giving students regular opportunities to get involved and contribute.

How it works

- Every student is assigned to a House
- Houses compete in a variety of activities across the year
- Students earn points for their House through effort, achievement and participation
- Points can be used in House auctions and rewards events

What students gain

- A strong sense of belonging
- Opportunities to achieve and be recognised
- Leadership and responsibility
- Fun through healthy competition
- Curiosity and creativity
- Confidence to take action and get involved
